

# Integrating Wind-Solar-CAES

Columbia University

2<sup>nd</sup> Compressed Air Energy Storage (CAES) Conference & Workshop

Sponsored by New York State Energy Research and Development Authority  
(NYSERDA)

Participants: EPRI, German Aerospace Center, Dresser-Rand, Sandia Nat Lab, Brookhaven Nat Lab, NREL, NYPA, Laurence Berkeley Nat Lab, Austin Energy, Princeton, Energy Storage Power, Energy Compression, Fraunhofer Institut Thermodynamik

OCTOBER 20-21, 2010

Davis Auditorium, Schapiro Center, School of Engineering and Applied Science,  
520 West 120<sup>th</sup> St. (between Broadway & Amsterdam Ave), Columbia University, New York City

Recent studies show the feasibility of large penetration of wind and solar in the nation's electricity grid. This workshop will investigate the synergistic potential of the two sources of energy and the challenges related to CAES power plants for further enhancing the potential of wind and solar.

**Registration is required:** For the **Agenda and Registration**, see: [www.clca.columbia.edu](http://www.clca.columbia.edu)
